Margaret Mary Health

A LETTER FROM OUR

leaders

A year we will never forget ... 2020. As we look back, it's easy to focus on hardship, uncertainty, suffering and loss. But as leaders of Margaret Mary Health, we choose to remember 2020 as a year when our entire region **united** to face the challenges before us. A year when our team members and community worked together to prove that in rural America, we are **resilient**. A year when the tireless efforts of many, both inside and outside the walls of our hospital, inspired us and countless others. A year when delivering on our mission to improve the health of our communities has never been clearer.

As you read through this report, you'll see how, as an organization, we found a way to not only survive but thrive during the pandemic. We faced tough decisions, suspending visitation and modifying procedures and policies, realizing it was difficult for families and patients, but knowing it was needed to keep our staff, patients and community safe. Despite the challenges, our focus on providing quality care never faltered. Once again, we received a Five-Star Quality Rating, the highest achievement possible, from the Centers for Medicare and Medicaid Services, placing us in the top 10 percent nationwide. We are the only hospital in the region to receive this rating three out of the

last four years and could not be more proud of all those who played a role, working through fear and uncertainty, to provide support and quality care during the most trying of times.

Recognizing that 2020 was an especially difficult year, we increased resources and services for behavioral health and addictions. Mental health challenges have increased exponentially throughout the nation and in our communities. We are committed to making sure we meet those needs and are **hopeful** our investment will positively impact many.

In addition to expanding behavioral health services, we also added new physicians to our medical staff for family medicine, internal medicine, urology and obstetrics/gynecology services. We are **grateful** for the ability to recruit quality medical providers who are passionate about creating a better future for the communities we serve in southeastern Indiana.

Yes, 2020 brought unprecedented loss and struggle to every community and every hospital in the world. And still, there is no place we would rather have been than standing alongside the dedicated caregivers of MMH and the wonderful businesses, organizations and volunteers in our communities. We are truly **blessed**.

UNITED

STRONGER TOGETHER:

At MMH, we believe the COVID-19 vaccine is the fastest and most effective way to end the pandemic.

That's why we've taken the lead in vaccinating as many members of our service area as possible. We are truly grateful for the support we've received in helping us deliver on this mission. Here is a snapshot of many of the team members, organizations and volunteers who helped us vaccinate our communities.

get vaccinated

If you'd like to receive the COVID-19 vaccine, it's available at Margaret Mary's Occupational Health and Wellness Center located on State Road 229 in Batesville. The vaccine is available free of charge to anyone 12 and older. Appointments are required by calling **812.932.5105**.

BARB HARTMAN

teacher

“It was very important to me to receive the COVID vaccine as soon as it was available. The best educational experience for students is in-person learning. By getting the vaccine, I can protect myself and my students from the virus and we can remain together in the classroom where their intellectual, social and emotional needs are best met.”

JUSTIN PRICKEL

farmer

“It was a no-brainer for me to get the vaccine. I did it for my family. I want to get together with loved ones knowing I will not spread COVID. I also want to make sure when I’m working in the community or traveling for work that I do not spread the virus or bring it home to my kids.”

ELIZABETH GIGRICH

student

“It was important to me to get the vaccine so I could protect my grandparents and others at greater risk of becoming ill, as well as lead by example for others. I am really looking forward to attending sporting events at school and gathering with my friends again more freely.”

HOPEFUL

For many, 2020 was an especially difficult year. Our behavioral health team is committed to providing comfort and support to our communities when they need it most.

MEET OUR BEHAVIORAL HEALTH AND ADDICTION TREATMENT TEAM

Your mental health influences how you think, feel and act on a daily basis. Not only does it affect your ability to cope with stress, it influences how well you overcome challenges and build relationships. At Margaret Mary Health Center, our behavioral health team offers treatment and support to people of all ages who suffer from emotional health issues, addictions and substance use disorders. These professionals come from a variety of backgrounds and have a wealth of knowledge in helping patients control addictions and take control of their mental health. To learn more about our behavioral health services, call 812.933.5406.

ABOUT OUR SERVICES

At Margaret Mary Health Center, our behavioral health team believes no single treatment works best for everyone. Instead, the optimal plan is one that is customized to meet your needs. For many people, the most effective approach involves a combination of counseling, peer support and medication.

ADULT MENTAL HEALTH

We believe your mental health is as essential to your well-being as your physical health. That's why our behavioral health team offers adults treatment for a range of mental and emotional health concerns, including depression, anxiety, ADHD, PTSD, mood disorders, grief and trauma. We are also proud to offer specialized support programs for a variety of groups, including the elderly, parents, mothers of newborns and trauma victims.

CHILDREN'S MENTAL HEALTH

Whether your child has behavior problems or suffers from mental health concerns like depression, anxiety or ADHD, our professionals can help. Through individual, group and family counseling, we teach patients how to accept themselves, feel safe and manage their emotions in a healthy way. We also offer medication management and encourage children to express their feelings through a variety of non-verbal methods such as play, art and writing. Our team works closely with local schools, MMH providers and the Department of Child Services to offer these programs to children.

ADDICTION TREATMENT

Our addiction treatment program is outpatient-based and designed for those with mild to moderate substance abuse issues. The curriculum teaches attendees how to control impulses, manage emotions and communicate effectively rather than turning to drugs or alcohol for relief. Medication-assisted treatment is also available. MMHC also works in collaboration with the Ripley and Franklin County Court Services to provide substance abuse counseling as ordered by the court system.

COLLABORATIVE BEHAVIORAL HEALTH

Our collaborative behavioral health services are a great option for Medicare patients who suffer from mental health concerns like depression and anxiety. This program allows participants to benefit from the collaboration of a psychiatrist and primary care provider without the need for multiple in-person appointments. Instead, each patient is provided with a care manager who coordinates treatment with the healthcare team and communicates the plan back to the patient.

WHAT IS THE MARGARET MARY HEALTH CENTER?

The Margaret Mary Health Center was created in 2021 to expand access to quality health and wellness services regardless of insurance status or ability to pay. The organization, while moving toward becoming a Federally Qualified Health Center, offers the same trusted staff and quality care MMH patients have come to expect. Behavioral health services, in addition to services at the Brookville and Milan locations, are offered under the MMHC umbrella. Learn more at mmhcenter.org.

INJURY CAN'T STOP ATHLETE FROM CHASING HER

childhood dream

For as long as she can remember, there's nothing Makayla Granger loved more than having a basketball in her hands. That's why the Batesville resident was devastated when a knee injury sidelined her from the game this past March.

"I was playing AAU basketball when I jumped to steal the ball from my opponent," said Makayla. "When I landed, I felt my knee buckle and heard it pop. I fell to the ground and wasn't able to walk off the court without help."

Makayla had an MRI on her knee and soon after followed up with Orthopaedic Surgeon William McDonald, MD who confirmed she had ruptured her ACL and would need surgery to repair it.

"I had a hunch I had torn my ACL, but it was still hard to hear those words out loud," said Makayla. "My heart dropped at the thought of not being able to play basketball. Dr. McDonald was confident and reassuring. He promised me I'd be able to make a full recovery."

Fortunately for Makayla, the ACL tear was small enough it could be repaired with arthroscopic surgery. This procedure

allows the surgeon to repair the knee through small incisions rather than the larger incision needed for open surgery. For patients, arthroscopic surgeries result in less pain after surgery, a faster healing time and lower infection rates.

Two days after surgery, Makayla was already walking without crutches, and by the end of the week, she started physical therapy at MMH's Rehab Center.

"My physical therapists are so good at what they do," said Makayla. "I got to know them well. We joked around, but when it was time to work, they pushed me to work hard. When my sessions got tough, I told myself it's all going to help in the long run."

Today, Makayla is well on her way to making a full recovery so she can play high school basketball this fall. Of course, her plans don't stop there.

"My dream is to play in college," she said. "This injury is only making me stronger. Just like playing sports, so much of my recovery has been a mental game. It's taught me to dig deep, work hard and stay positive."

our orthopaedic team

William McDonald, MD

Stephanie Eckerle, PA-C

If you suffer from conditions that affect your mobility and range of motion, Orthopaedic Surgeon William McDonald and Physician Assistant Stephanie Eckerle can help. They offer a full range of services, including joint replacements, hand treatment, foot and ankle treatment, fracture care and sports medicine. To learn more, visit us online at mmhealth.org.

TEACHER LEARNS VALUABLE LESSON WITH

cancer diagnosis

Last August, Abby David, a teacher at South Dearborn High School, set off for her first week of school not realizing her time with her new students was about to be cut short. That week, Abby felt awful, experiencing intense stomach pains. When the school bell rang, she was out the door and on her way home in a hurry.

Abby's husband, Jim, met her at home and rushed her to Margaret Mary's emergency services department where a CT scan confirmed she had a blockage in her colon. From there, a colonoscopy was performed which determined she had colon cancer and would need surgery to remove the blockage.

"It was overwhelming. Who would have thought cancer would be a possibility at age 38?" said Abby. "I'm so grateful Dr. (Jon) Geers could get me in for surgery so quickly."

The surgery was successful, however Abby was soon faced with a new challenge when she was told her lymph nodes tested positive for cancer and she would need chemotherapy.

"I had heard great things about Margaret Mary's Cancer Center, but I wanted to get a second opinion," said

Abby. "After visiting a couple of facilities, there was no question where I wanted to go. During my first appointment at Margaret Mary, a room full of cancer professionals was there to discuss my plan. Their team approach made me confident I was in the right place."

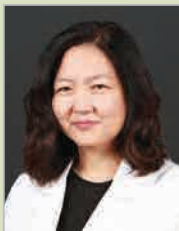

Abby received chemotherapy from September through March. Although each session lasted about four hours, she didn't have trouble passing the time.

"During chemo, I'd bring my laptop and grade papers or teach virtually," she said. "The staff took great care of me. We shared lots of stories and laughs. I think I'm going to be life-long friends with some of them. I was also happy to get weekly massages from the massage therapist."

Now cancer-free, Abby is hopeful her story will help others who are going through tough times.

"Cancer is a difficult journey," she said. "God forbid you receive a cancer diagnosis, but if you do, I suggest you keep a positive outlook and surround yourself with supportive people. I also recommend Margaret Mary's Cancer Center hands down."

AMIDST PANDEMIC, FAMILY BLESSED WITH

christmas wish

Last spring, when the rest of the nation was beginning to quarantine at home to avoid the spread of COVID-19, Batesville resident Kathryn Beckner had her own reasons for wanting to settle in at home with her family.

“Shortly after we went into quarantine, I found out I was expecting baby number four,” said Kathryn. “I was excited about the pregnancy, but as a high school English teacher, I knew how hard it would be to cope with morning sickness in front of a class full of students. Being home during my first trimester made it easier to handle the symptoms of pregnancy.”

Having previously delivered at MMH, Kathryn didn’t hesitate to again choose the hospital and its OB physician group for her fourth baby.

“Dr. (Jeff) Hatcher has delivered all of my babies since moving back to Batesville,” said Kathryn. “He’s great — always upbeat and relaxed. During this last pregnancy, I was 37 (years old) which gave me a slightly higher chance of having complications. I appreciated how he explained to me my risks and options for prenatal testing, but always respected my wishes.”

On Dec. 15, having gone past her due date, Kathryn was scheduled for an early morning induction. After a relatively smooth labor and delivery, she and her husband, Justin, welcomed a baby boy, Aloysius “Wish” Edward, into the world.

“Wish was born in the middle of the pandemic, but it was easy to forget about the outside world when we were at the hospital,” said Kathryn. “We wanted as much time alone with him as possible before going home to our other children, and our nurses gave us that. The hospital felt safe, calm and comfortable.”

While many Americans look back on the year 2020 and remember its struggles and uncertainty, the Beckners have reason to smile when they reflect on the year.

“Choosing the right name for Wish was hard because we wanted something unique,” said Kathryn. “It’s a family name, but we decided the name was appropriate after realizing Saint Aloysius cared for victims of the plague and is associated with pandemics.

“He’s a good baby - always smiling and laughing. He loves watching the older kids and is a perfect fit for our family.”

DR. GRYSPEERDT TO CONTINUE

legacy

This August, MMH welcomes Family Medicine Physician Richard Gryspeerdt to its medical staff. A native of Batesville, he's excited to return to his hometown to provide care to the community that gave so much to him.

"Southeastern Indiana has always felt like home," said Dr. Gryspeerdt. "The strong sense of community, great schools and room to roam make it a prime place to raise a family. Moving back will also allow me to fulfill my childhood dream of working with my dad."

Dr. Gryspeerdt will be seeing patients in the Medical Arts Center alongside his father, Dr. John Gryspeerdt, a physician at MMH since 1995.

He and his wife, Lauren, recently welcomed their first child, Finn. In their free time, they enjoy camping, fishing, canoeing, gardening and playing with their dog, Kashe.

WISHING DR. GLASER A WONDERFUL

retirement

Having provided care to the patients of southeastern Indiana for the past 40 years, Dr. Stephen Glaser is retiring at the end of July. Known for his kind and soft-spoken manner, his impact reached beyond his medical practice and extended into the classroom, athletic field, free clinic and mission field. He will be greatly missed by his patients and colleagues, and we wish him all the best for an enjoyable and relaxing retirement.

Thanks to my patients, my career as a doctor has been extremely rewarding. I'm grateful to have had the chance to serve my community all these years and look forward to spending more time with my wife and family. I also plan to continue volunteering, spend more time outdoors and focus on my photography.

A LETTER FROM OUR

leaders

2020 brought incredible challenges and great uncertainty. However, our community pulled together like never before. It was the genuine thoughtfulness and compassion of so many that gave us the strength and energy to persevere. Innumerable acts of kindness, well wishes, donations of personal protective equipment, handmade masks, gowns and meals all raised the spirits of our team members as they cared for our community.

In 2020, the Foundation was able to provide more than \$140,000 in support to Margaret Mary Health. The purchase of 20 new Powered Air Purifying Respirators provides increased respiratory protection for our team members and patients during respiratory disease outbreaks like COVID-19. Additionally, a new UV light disinfection system

delivers an extra level of protection to existing cleaning methods within the hospital.

Thanks to your generosity, we were able to purchase larger monitors for our operating suites which provide an improved viewing area for radiology images during surgical procedures. Also, a new pathology microscope and camera provide enhanced technology for our Oncology Tumor Board, allowing staff to collaborate virtually when discussing a patient's best possible treatment plan. Finally, new televisions and headsets in infusion bays at our Cancer Center help ensure a quiet, peaceful and improved experience for patients. We continue to be amazed by our community's generosity, and we are deeply grateful for all we are able to accomplish together.

NEW AMENITIES

Our Cancer Center recently received new televisions and headsets in the infusion bays. These amenities provide patients with a quieter and more relaxing environment during long chemotherapy treatments.

RECENT GRANTS

a year in review

A SAFE HAVEN

Located on an exterior wall of MMH, the Safe Haven Baby Box allows a mother in crisis to safely, securely and anonymously surrender her newborn if she's unable to provide care.

PEDIATRIC SPACE

A new sensory integration room was recently created for pediatric patients at our Rehab Center. This space, which includes a climbing wall, is equipped to stimulate the senses.

UV LIGHT DISINFECTION SYSTEM

This enhanced technology improves our ability to quickly disinfect spaces throughout the hospital so we can better protect our patients and caregivers.
