COMMUNITY UPDATE

## MESSAGE TO OUR COMMUNITY

As we reflect on the past year, we extend our sincere gratitude to you — our patients, partners and neighbors — for your unwavering trust and support.

A significant milestone of 2024 was breaking ground on our new hospital, a project that has been years in the making. This achievement is a testament to the dedication, expertise and hard work of our entire team, who has devoted countless hours to the planning and design of this transformative facility.

This project represents more than just the construction of a new building. It's a promise to continue delivering exceptional care with modern, state-of-the-art facilities. While we embrace these advancements, we remain deeply rooted in the values that have long defined rural healthcare, offering services that are heartfelt and connected to the communities we serve.

Looking to the future, we are also excited to share an important part of our evolution — our refreshed

logo. With the opening of our new hospital less than one year away, this rebranding marks a key moment in our journey.

The logo's elements not only honor our rich history, but also symbolize the future of MMH — a future focused on prevention, wellness and healing.

Rural healthcare today faces significant challenges, from rising operational costs to the complexities of reimbursement changes. However, we are not simply responding to these obstacles; we are actively embracing innovation, thinking creatively and developing strategies to ensure we continue to provide the best possible care for our community.

Together, we have made remarkable progress and are excited for what lies ahead. Thank you for your continued support in helping make healthcare more accessible, more innovative and more connected to the needs of our community now and for future generations.

## The next generation of care

By expanding the clinical space in our new hospital by 38 percent, our new facility will be more efficient and easier to navigate, ultimately leading to an improved overall healthcare experience for everyone.

Because we know how much our community loves dining at MMH, our new café will be open to the public, but with the added bonus of outdoor seating with garden views.

Our new surgery department will be significantly larger and more efficient than our current space with the capacity for additional cutting-edge technology in the future.

A more extensive network of community walking trails will adorn our campus, connecting to our existing trails and nearby Freedom Park.

In addition to incorporating plenty of natural light in the new hospital, the facility will showcase artwork by local photographers, as well as a custom art display created with the help of local students.

By integrating geothermal technology, our new hospital will be more cost-effective and energy efficient, providing a sustainable and eco-friendly solution for future heating, cooling and electricity needs.

# Athlete, teacher, coach and two-time cancer survivor

## DONNA HOEING / BREAST CANCER

If you're from southeastern Indiana, there's a good chance you've heard of Donna Hoeing. From being an Indiana Basketball Hall of Famer to a longtime teacher and coach, she's made an impact on numerous lives.

Despite her many roles, one title Donna rarely mentions is being a cancer survivor.

Dedicated to receiving her annual mammogram, Donna was first diagnosed with breast cancer at the age of 47. At the time, Donna, whose husband, John, passed away in 2000, was a busy single mother of two young sons.

"At first I was scared," said Donna, remembering the moment she received the news. "My boys were 16 and 14. I didn't want them to lose both parents."

Donna had a lumpectomy to remove the cancerous tumor and went on to receive radiation therapy at MMH's cancer center.

"I had a great experience," she said. "Batesville School Corporation allowed me to run over and receive treatments on my lunch break. I liked being cared for by people who knew me. Everyone was kind and genuine — beyond what one would expect."

After completing her radiation treatments and showing no further signs of cancer, Donna quickly returned to her busy life. However, five years later, another mammogram revealed more concerning news. The cancer had returned. Again, she returned to MMH, this time receiving a mastectomy followed by chemotherapy.

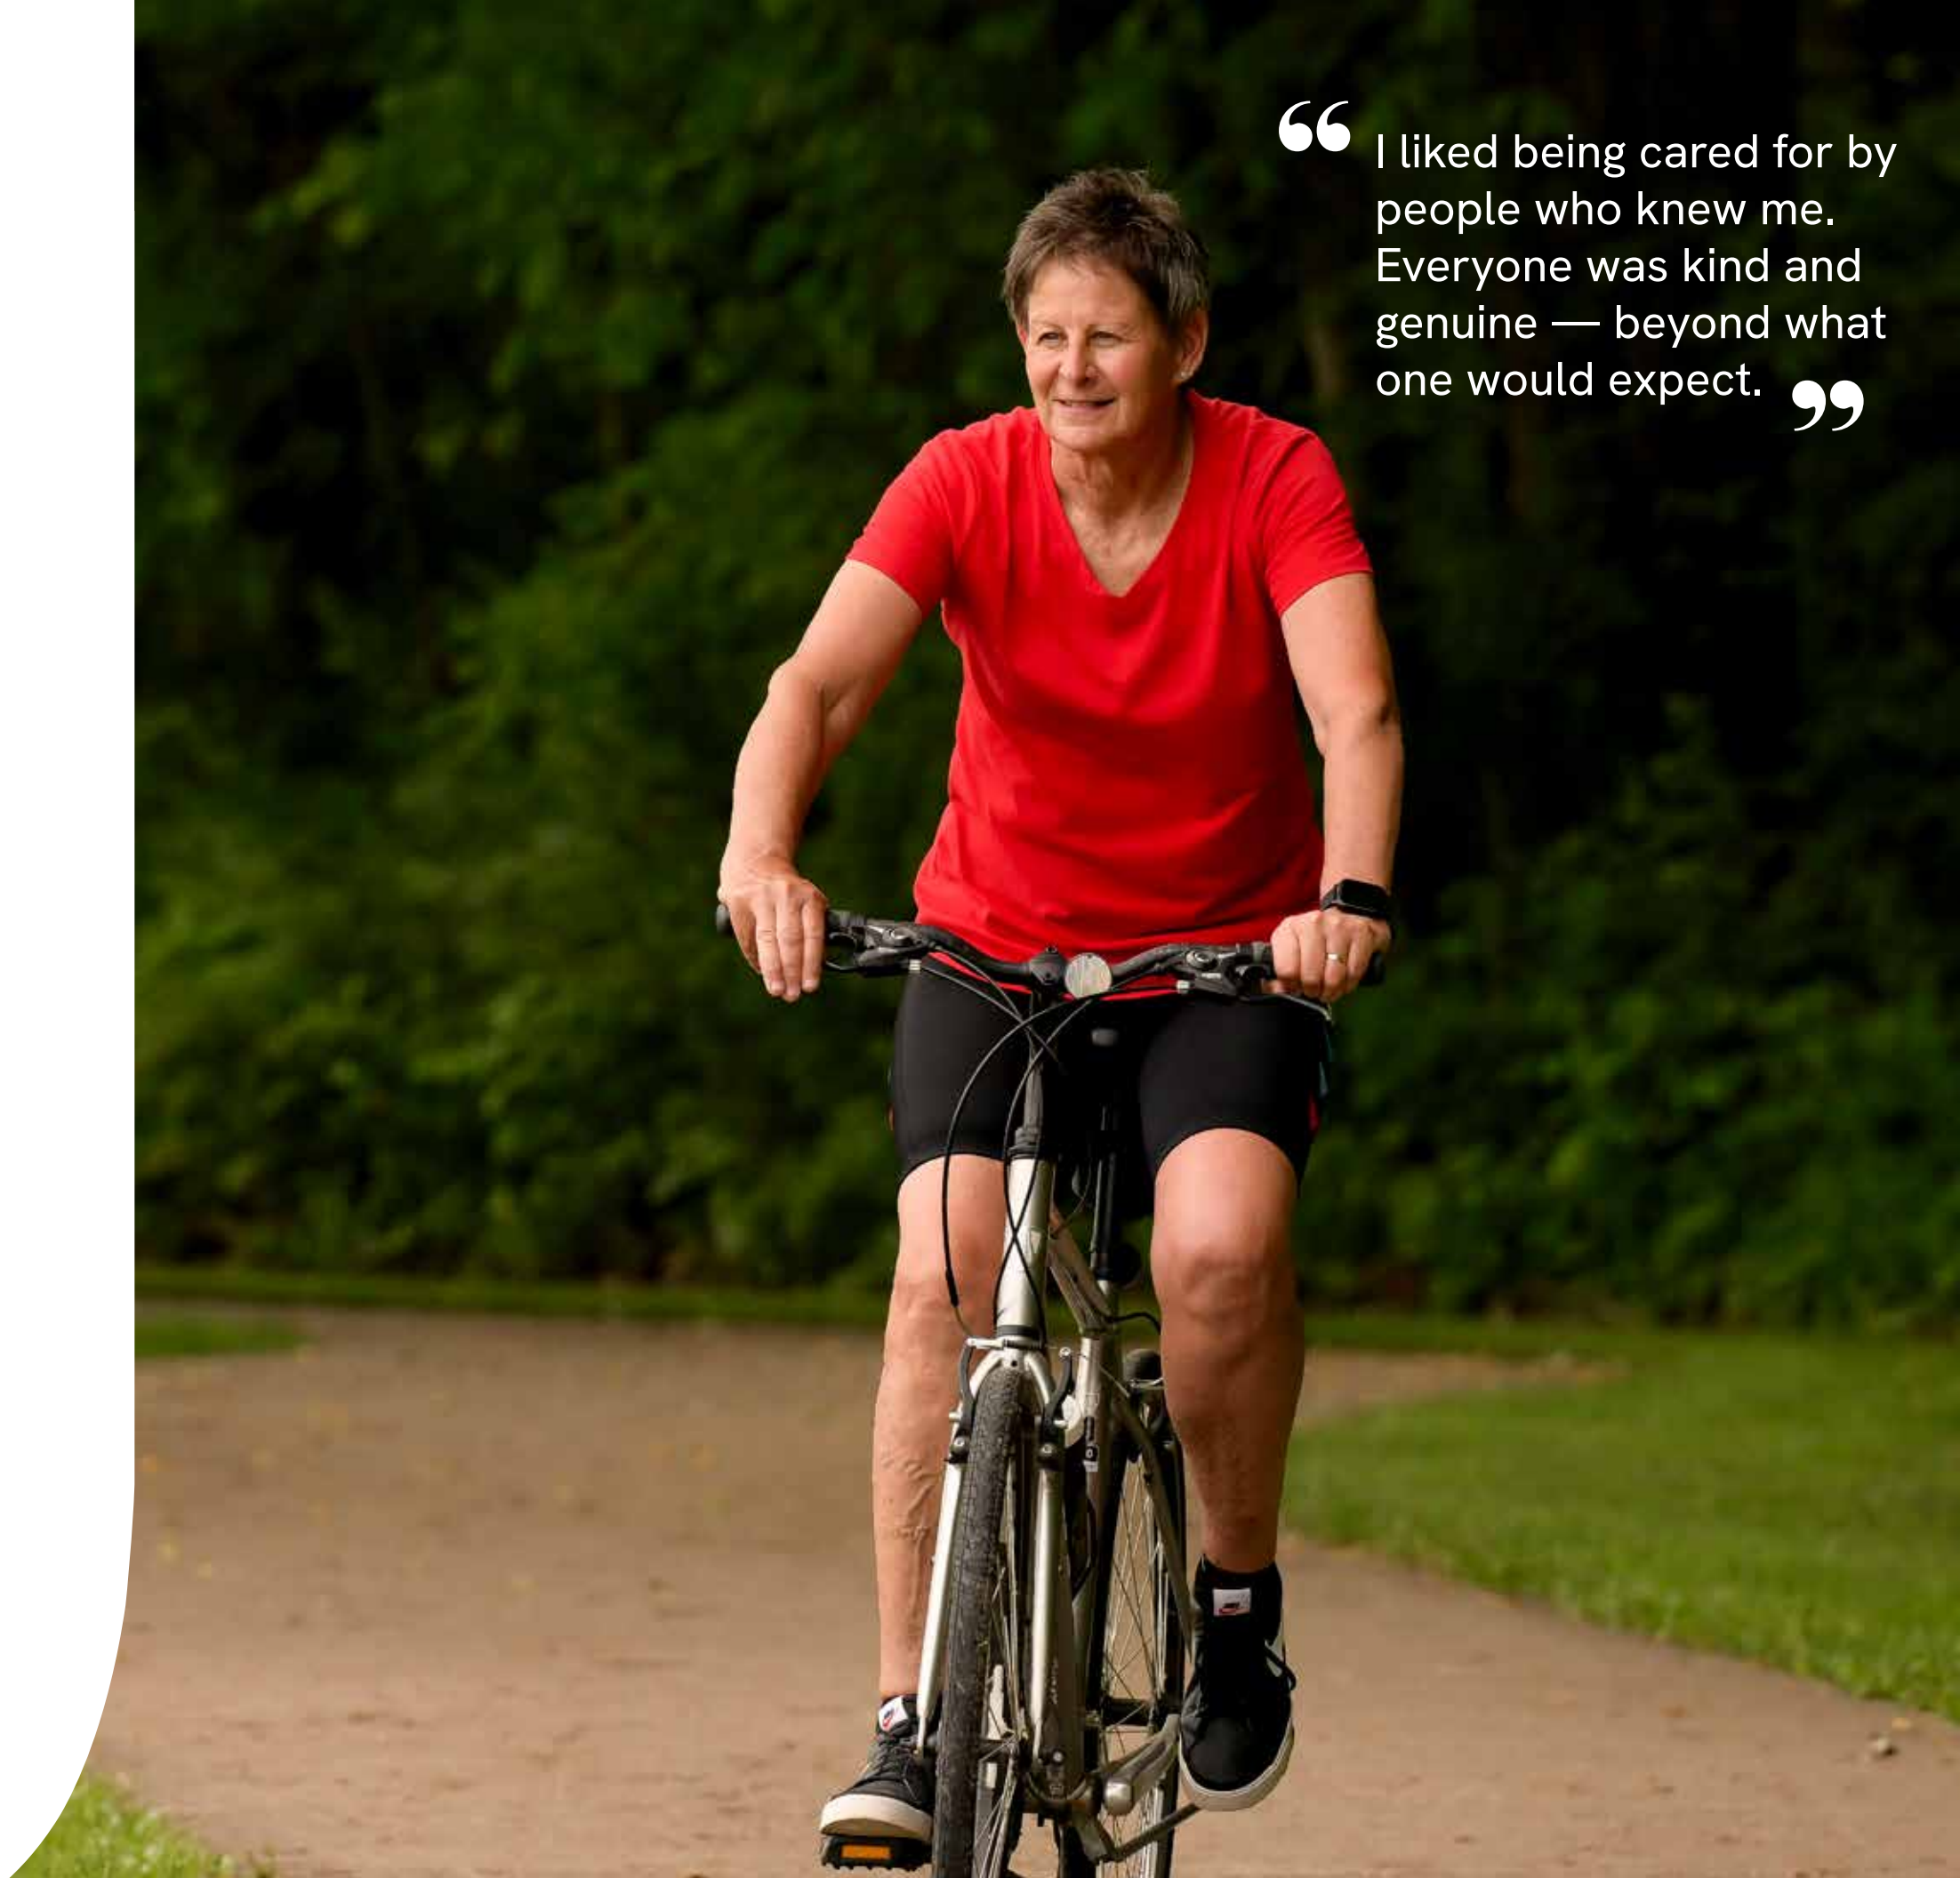

Cancer-free for 10 years now, Donna is happy, healthy and enjoying retirement.

"I like to stay busy — yard work, traveling, home projects," she said.

"I've had challenges in my life, but I think each challenge prepares you for the next. I wanted to stay positive. I wanted to set an example. I wanted to succeed."

And that she did.

“ I liked being cared for by people who knew me. Everyone was kind and genuine — beyond what one would expect. ”

We've been caring for this  
community for nearly 100  
years — because this is  
home for us, too.

“Every experience I’ve had with Margaret Mary has been helpful and friendly — night and day from every other medical experience I’ve had. I felt like I was getting the best care every time.”

# Rediscovering life without pain

## TODD MEEKS / ORTHO & REHAB

Todd Meeks, 58, loved the thrill of motocross racing in his younger years but not the damage it caused his middle-aged knees. The pain came early and intensified to the point that he had to plan activities around it.

“Everything from getting out of a chair to walking was difficult,” he said. “It was bone on bone in both knees.”

Todd and his wife had moved to Brookville from Cincinnati in 2020, when they’d become empty nesters. His primary care physician referred him to Orthopedic Surgeon J.D. Stephens, and Todd didn’t hesitate.

After decades of pain and frustrating medical visits, Todd found a “supportive, knowledgeable” partner in care. Together they considered options, and once Todd felt he had all the information he needed to make the decision, he had total joint replacements on both knees this past November and December.

Todd’s experience at other hospitals hadn’t inspired as much confidence and trust: “It’s a different vibe at a small-town hospital,” he said. “I love the welcoming atmosphere of Margaret Mary Health and have great trust in my doctors. When they ask if I have questions, they genuinely want me to ask questions. It feels like a family environment.”

After years of dreading every step, Todd was amazed to walk into his house unassisted when he came home from his first surgery. Todd progressed well through rehab and is excited to be back to all the activities he’d been missing.

“I’ve finally been able to get the trees cleaned out around our creek and am back to mowing, trimming and all the outdoor activities I enjoy,” he said. “Every experience I’ve had with Margaret Mary has been helpful and friendly — night and day from every other medical experience I’ve had. I felt like I was getting the best care every time.”

# Caring for you like family

## SISTER DUO

### Rachel Gehl and Rita Grote

Nurses

"We love being able to have a positive impact on the well-being of those right here in our community. The care and respect among coworkers make MMH a great place to work and grow both personally and professionally. As sisters, it's always interesting to hear others comment when they recognize our similarities and differences. We are forever grateful to work alongside each other."

## BROTHER & SISTER DUO

### Chad and Darby Hartsock

Safety Coordinator / Nurse

"Working at MMH has been an extremely rewarding experience for both of us. We appreciate being able to give back to a community that has given us so much throughout our lives. MMH does an excellent job of creating a family atmosphere for its team members and patients. It's also fun to bump into each other from time to time and see the impact each other is making."

## HUSBAND & WIFE DUO

### Matthew and Kayla Kruthaupt

Maintenance Tech / Nurse

"We enjoy working in the same community where we live because it allows us to take care of our neighbors. MMH definitely offers a family-like environment where the people we work with are more than just coworkers — they're our friends. It also took some time to get used to seeing each other at work, but now we really enjoy it."

## HUSBAND & WIFE DUO

### Trevor and Jane Loftis

Physician / Nurse

"We love the small-town bonds we have with our coworkers and many of our patients. In this community, everyone literally knows everyone or is related in some way. We both came from a larger hospital where coworkers are just that, but here coworkers are family. We love working together because we often anticipate what the other is thinking. Our patients also seem to enjoy the surprise when we mention we're married."

# Complete recovery after a heart scare

## STEVEN HART / CARDIOLOGY

Earlier this year, Greensburg resident Steven Hart noticed pain in his shoulder after chopping wood. When the discomfort persisted for several days, the 43-year-old began to suspect it might be more than a pulled muscle. Concerned, he and his wife, Hilary, headed to MMH's emergency department.

"I didn't have any symptoms other than right shoulder and upper chest pain," Steven said. "I was thinking I had pneumonia. It never occurred to me it could be a heart attack."

Even as he insisted he was fine, medical staff were "swarming around to assist" as soon as they heard his symptoms, Steven said. He remembers feeling the staff was attentive and listened to him, yet also direct with his diagnosis: "They were polite but firm when explaining the seriousness of my condition and why I needed to be transferred to The Christ Hospital by EMS."

Steven was having a heart attack at that very moment — and had probably had two more earlier in the week, judging by the symptoms he described.

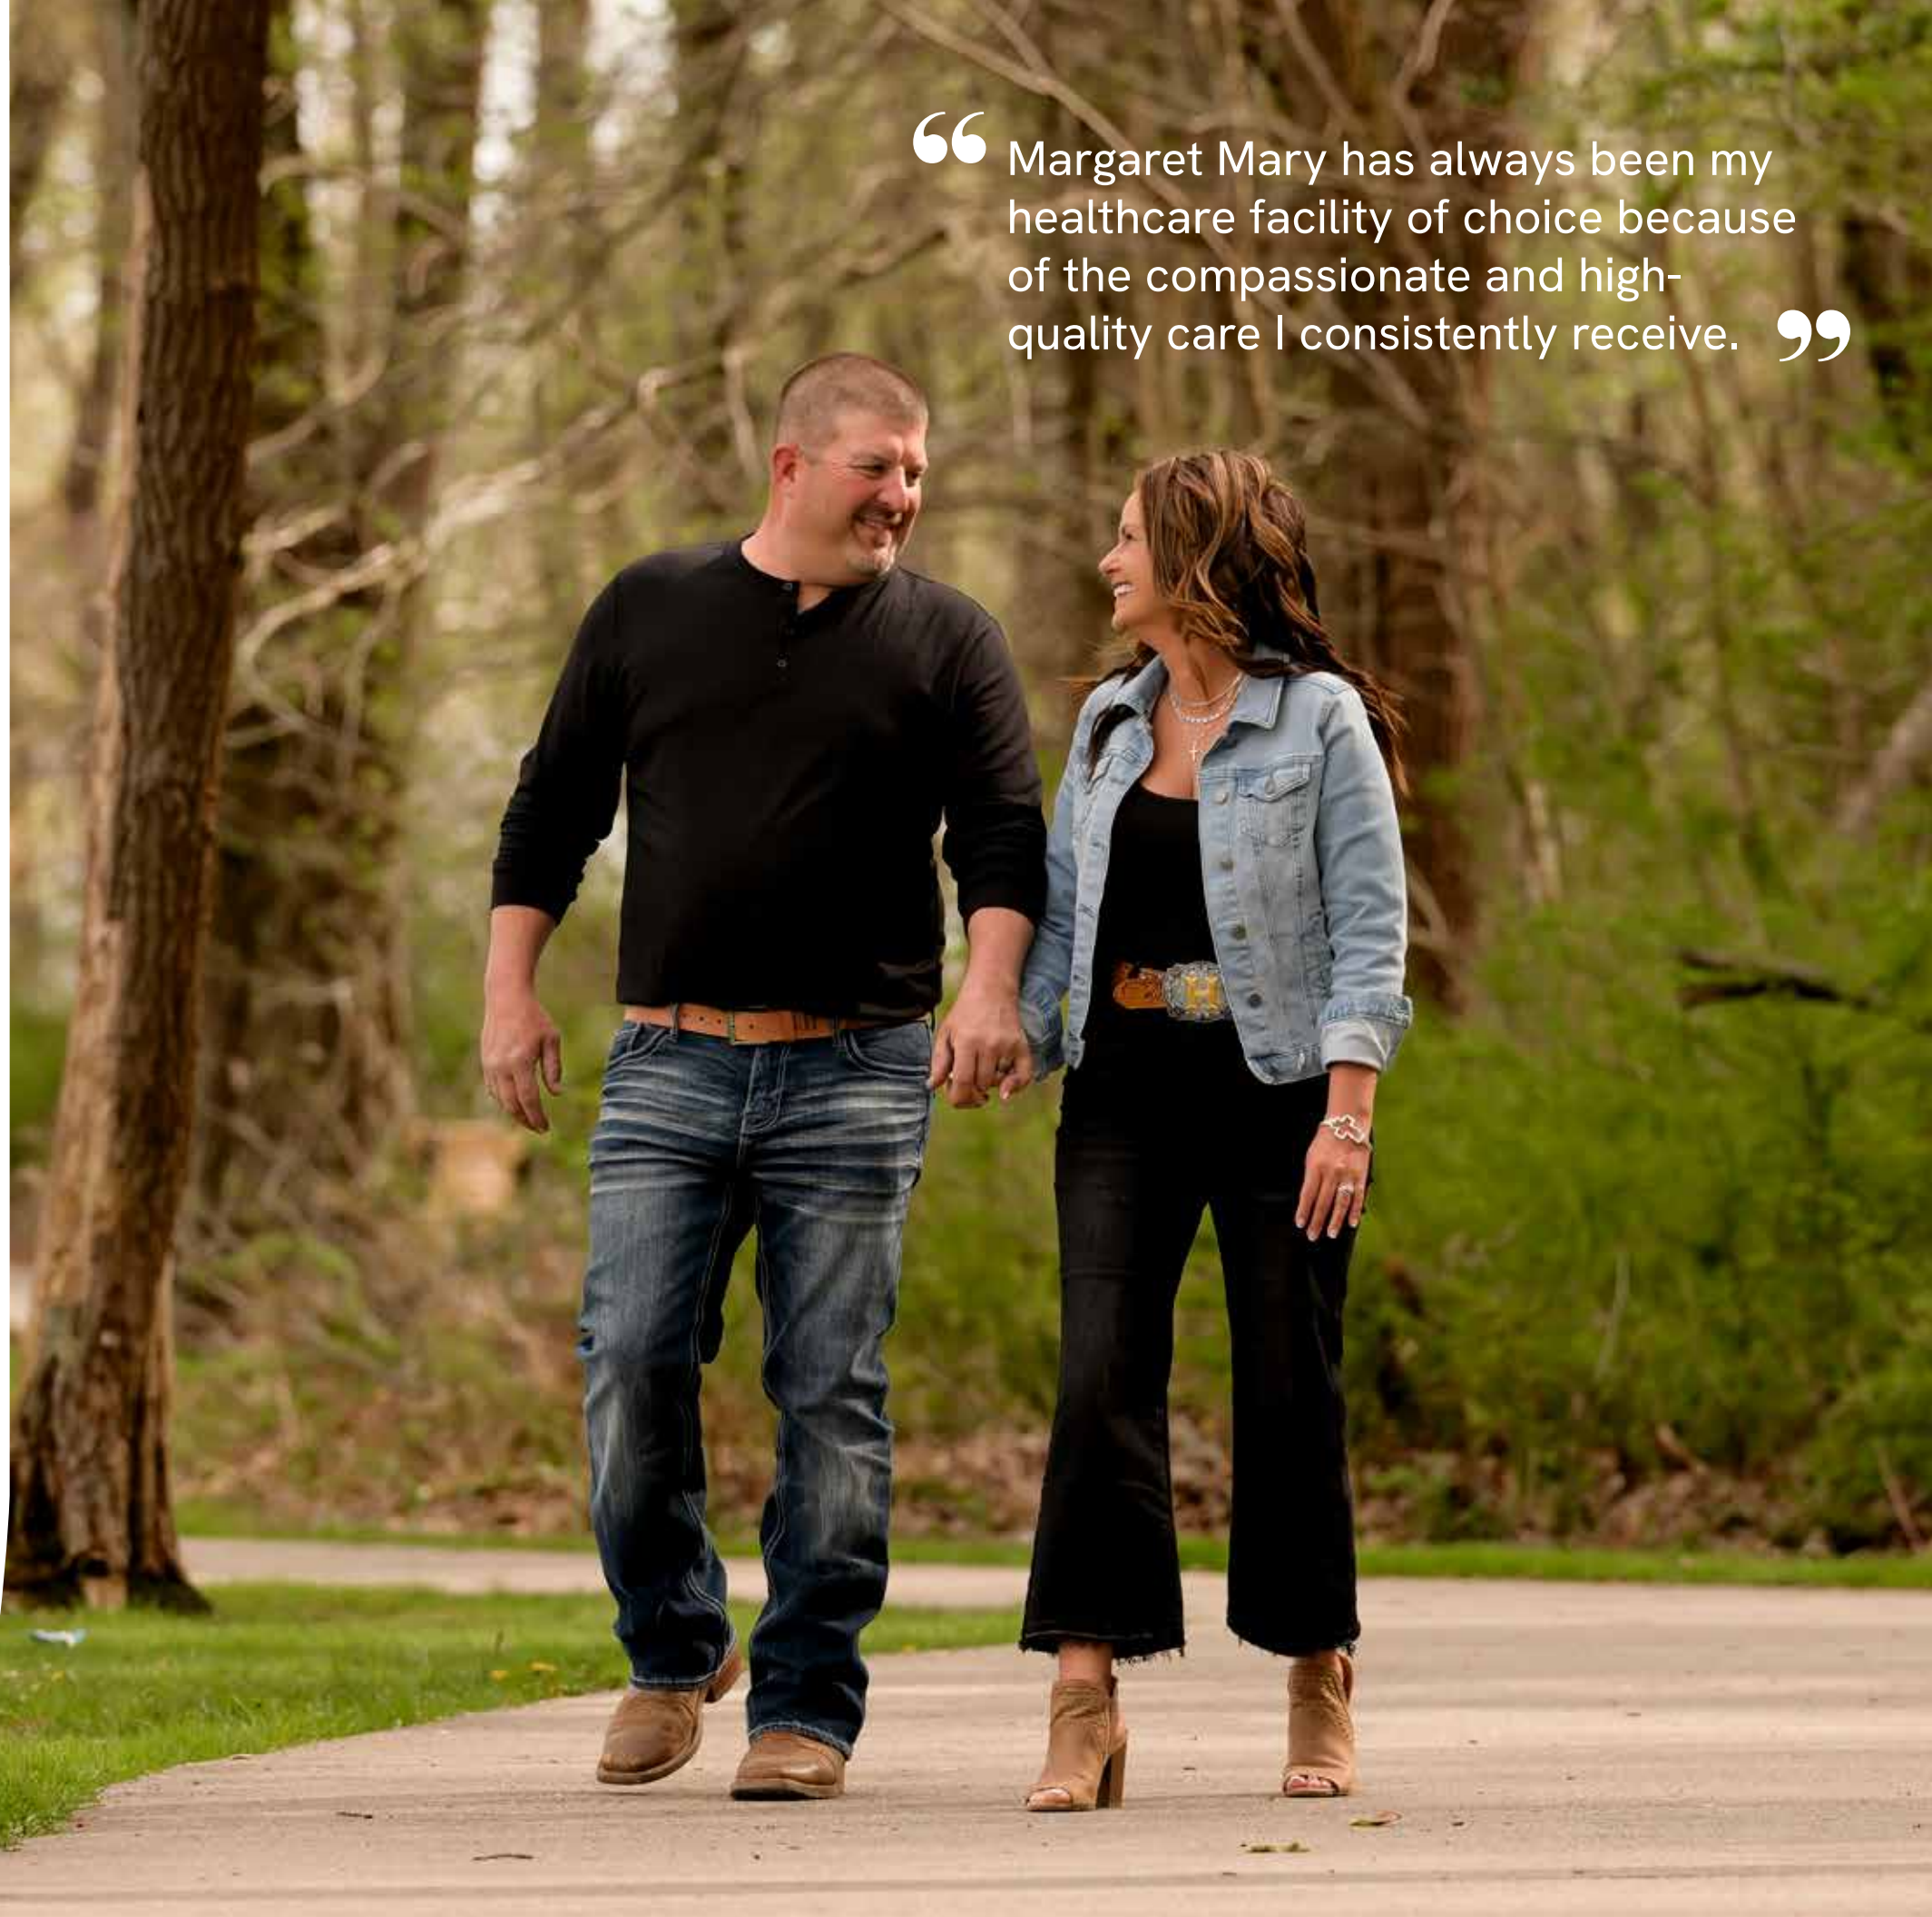

For medical emergencies requiring more advanced treatment than we can provide at MMH, we are proud to be an accredited member of The Christ Hospital Chest Pain Network. This means our team has systems in place to treat and transfer heart attack patients quickly and efficiently.

After Steven was transferred, cardiac specialists at The Christ Hospital confirmed his diagnosis, including the two earlier heart attacks, and identified a 90 percent blockage in a coronary artery. He was soon taken to the cath lab for stent placement and returned home less than 24 hours after arriving at MMH.

Today, Steven's doing great and can enjoy time with his wife — the high school sweetheart with whom he reconnected in 2022. He also stays busy working through his "honey-do" list on the home they built last year.

"I'm grateful to the teams at both hospitals for being so attentive and acting quickly," said Steven. "Margaret Mary has always been my healthcare facility of choice because of the compassionate and high-quality care I consistently receive."

“Margaret Mary has always been my healthcare facility of choice because of the compassionate and high-quality care I consistently receive. ”

# Here for you during every stage of life

## ENDOCRINOLOGY CARE

### Tim Beneker

Brookville

"I was referred to Dr. (Neelima) Ghanta for thyroid concerns. Having never used telehealth before, my wife and I were nervous about how the visit would go, but we were pleasantly surprised. Dr. Ghanta and the nurse assisting us were friendly, knowledgeable and thorough. They answered our questions in detail and suggested a treatment plan. We appreciated having access to an endocrinologist without having to drive far."

## HOSPICE CARE

### Mary Jo Heppner

Batesville

"During my husband's final days, the hospice staff was incredible. We called them our angels in disguise. I'm a nurse myself. No matter how much you think you know about caregiving, it's different when it's your loved one. Hospice nurses have a special way about them — so helpful and compassionate."

If you're interested in becoming a Hospice volunteer, please reach out at 812.933.5125.

## OBSTETRICS

### The Kriders

Brookville

"We welcomed our baby girl, Quinn Marie, on February 12. From our delivering doctor to our amazing nurses, the entire OB staff made us feel supported. It truly felt like they knew us. As first-time parents, the experience could have been overwhelming, but the team walked us through every step with kindness. Everyone was not only knowledgeable and attentive but also genuinely caring."

## FAMILY CARE & OB/GYN

### The Begemans

Versailles

"It can be scary putting your health and your children's health in someone else's hands. Dr. (Gloria) Brelage and Dr. (Jeff) Hatcher have proven to be knowledgeable and created a space where my family and I feel comfortable. Everyone at Margaret Mary makes us feel welcome, heard and that our appointment is just as important to them as it is to us."

# care for generations to come

## MEET OUR PROVIDERS

At MMH, we pride ourselves on the talent and longevity of our medical staff. Whether you're looking for a provider for your family's general health needs or a specialist for a more specific medical concern, we have a healthcare professional that's right for you.

Consisting of physicians and advanced practice providers, our medical staff is not only well-trained, but they genuinely care about the patients they serve.

If it's specialty care you need, we're proud to partner with some of the nation's leading hospitals to bring cutting-edge services to our community.

For oncology, cardiology, pulmonology and sleep medicine, we coordinate with The Christ Hospital Health Network. For GI concerns, we partner with IU Health.

To learn more about our medical staff, visit us online at [mmhealth.org](http://mmhealth.org).

## A LETTER FROM OUR LEADERS

Thanks to the incredible generosity of our amazing community, Margaret Mary Health Foundation made remarkable strides again in 2024. Whether you contributed financially, served as a volunteer or participated in one of our events, we are grateful to you for helping us advance our mission.

Each year, we host a variety of fundraising events, including our Hospice 5K, Cycle to Celebrate and Remember, Stop the Stigma 5K and Girls on the Run 5Ks. Last year's events were especially instrumental in advancing our capital campaign for the construction of our new hospital. Our golf outing saw an unprecedented turnout, raising nearly \$85,000, while our annual gala impressively generated \$1 million.

In the pages ahead, we proudly recognize our annual donors. Every contribution collectively makes a significant impact on the lives of our community and empowers us to dream bigger and strive harder each year.

We thank you for partnering with us to build a healthier future for generations to come.

## JOIN THE 1932 SOCIETY

The 1932 Society recognizes those who have included the Health Foundation in their estate plans. Multiple giving options are available for those interested. A special thanks to our current members:

Get involved with Margaret Mary Health Foundation

Some of you may be wondering how you can get involved with Margaret Mary Health Foundation and your community. There are so many ways you can make an impact, such as:

ATTEND EVENTS

MMHF hosts multiple 5Ks, a cancer awareness event, golf outing and gala each year.

KROGER PLUS DONATION

Register MMHF on your Kroger Plus account. Every time you shop at Kroger, you'll make a donation to MMHF.

PLANNED GIVING

Remember MMHF in your estate and planned giving plans.

GIFTS OF STOCK/SECURITIES

By donating long-term appreciated securities like stocks, bonds and mutual funds directly to MMHF, you can significantly increase your charitable gift and potentially save on taxes compared to selling the assets and donating the cash proceeds.
